PERSONAL SUMMARY

A talented programmer with over three years industry experience, an exceptional eye for detail and a drive to further my career within the Information Technology sector.

PROFESSIONAL EXPERIENCE

Assistant Manager & Programmer at Central Bank of Indonesia

Jan 2023 – Jan 2026

As the Assistant Manager & Programmer I am responsible for providing support to managers and employees, assisting in daily office needs including management of Platform activities.

Key responsibilities

- Assisted the platform operations team with knowledge and guidance tasks including:
coordinating the full function of the platform and monthly platform maintenance.
- Coordinating with platform engineers, fixing bug on the platform and giving seminars about the platform.

Achievements

- Successfully implemented two main platform on my department and become leading data driven institution in Central Bank of Indonesia, I also learned how to manage business metadata and technical metadata.

Interests

- Chess
- Hiking
- Listening Music
